

PKon AR/Major Medical

Charge and collection management

PKon AR is a powerful Accounts Receivable program that is integrated directly into PKon POS, so that charges and “Paid on Accounts” can be entered at the register quickly and accurately. Produce clear and professional laser-generated statements ready for windowed envelopes. This is your one-stop Accounts Receivable program.

Overview

- Two full-featured receivables programs.
- PKon MM (Major Medical) billing program allows for the billing of major medical claims direct from filling of Rx.
- A/R billing program links seamlessly with PKon POS for direct billing to Patients' accounts from the POS register.
- Seamlessly integrated with PKon Rx so that re-entry of patient or Rx data is not necessary.
- Full history of all transactions—no purging, closing, or deleting required.
- Ability to bill OTCs and other items along with prescriptions.
- Major Medical invoicing function that tracks prescriptions billed to insurances, with the tracking number that insurers require.
- Interest calculation.
- Past Due listings.
- Tracks pharmacy store receipts.
- Reprinting of any invoice or statement.

Product Functions PKon AR

- Laser printer statement generation.
- Register entry of all payments.
- Paid-on-account.
- Multistore capability with remote statement printing.

Product Functions PKon MajorMedical

- Laser printer statement and invoice generation.
- Major Medical invoicing function that tracks prescriptions billed to insurances, with the tracking number that insurers require.
- Full aging of all accounts.

Special Features

- Major medical patients may have a combination of insurance and store charges on one account.
- Any group of patients can share an account.
- Instantaneous printing of single or multiple invoices or statements.
- No need to enter duplicate patients as PKon Receivables handles multiple billing types
