

PKon Auto-Fax

Improving Physician relations

PKon Auto-Fax is more than just a fax dialing program. It is a doctor fax refill monitoring system. Quickly select prescriptions and send to the doctor without printing any paper copies. Auto-Fax notes time, date & completion of fax to doctor. A great time saver!

Overview

- Direct integration with PKon Rx
- From any station, any task, send refill request faxes to any doctor.
- Ability to fax only, print only or fax and print.
- Defaults to current doctor on prescription.
- Fax log with error tracking to assure all faxes transmit and are received.
- Time and date stamp on profile to easily view status of scripts faxed.
- Can utilize existing fax phone line if current fax machine supports sharing of fax line.

Advanced Functions

- Fax from PKon Reports.
- Need to send your accountant a financial summary or send a doctor a patient's profile? Autofax can do it! Generate the report as normal and fax it directly. Save time and effort.

Planned Updates

- Prescription note log with scheduling to track documentation and scheduling issues regarding a patient and prescription.
