

PKon Checkbook

Say goodbye to manual check-writing

PKon CheckBook is a powerful, yet simple laser check-writing program that integrates easily with your pharmacy system. Utilizing the manual feed drawer of the laser printer and not interfering with any pharmacy operations, you can print checks anytime during the day, and still have full reconcilable functions.

Standard Features

- Quick check-writing including a reconcilable checkbook.
- Print checks immediately or in batches.
- Repeat (recurring) check generation.
- Easily create and store Vendor, Expense and Deposit “types” for quick entry.
- Track and report on pharmacy store expenses.
- Real-time account balance.
- Memorized check input.

Benefits

- Save time by having the system memorize vendor and expense information.
- Provides an instant “big picture” of store’s finances.
- Quick and simple to use.
