

PKon MAR

PKon MAR is possibly the easiest nursing home program to use. PKon MAR was designed for homes with about one hundred beds and prints various forms for the doctor, home, nurses and pharmacy. PKon MAR also supports laser forms, so that you don't need to purchase expensive preprinted forms.

Overview

- A simple to use nursing home program for pharmacies that need to print MAR and Physician Orders, yet don't need the complexity of a full-scale nursing home management system.
- Seamlessly integrated with PKon Rx so that there is no re-entering of patient or Rx data.

Product Functions

- Shares prescription, patient, doctor, and drug information with PKon Rx.
- Adds additional home-related patient information tracking.
- Features to manage nonprescription orders.
- Print MARs for one patient or entire facility.
- Customized administration times.
- Tracks Facility information.
- Tracks additional patient disease states.
- Multiple free-text fields.

Special Features

- Laser forms generated by the printer.
- Flexible form printing.
- Nurses notes.
