

PKon Reconciliation

Real-time aging

It's easy to get buried in insurance paper work and even easier to lose track of reimbursement checks. Improve your ability to efficiently reconcile individual insurer claim payments, without having to check each claim individually. Useful features allow you to accurately mark and post payment vouchers, while providing real-time aging for all outstanding payments.

Standard Features

- Integration with PKon RxNet
- Insurance Summary and Detail reports
- Full aging of insurers
- Easy to use PKon interfaces

Software Features

- Real-time sorting of prescription information by date, time, patient, Rx number
- Efficient marking of paid prescriptions
- Tracks secondary billings (COB) correctly
- Tracks edited and reversed prescriptions
